FRIDAY, NOVEMBER 19.
THANKSGIVING PROCLAMATION.

BY THE GOVERNOR OF WISCONSIN.

Another year of prosperity has been granted to the people of Wisconsin. The state is free from internal dissensions, and commendable progress has been made in all that tends to elevate the people and promote their welfare.

For these blessings, it is proper that we reverently return thanks to Almighty God.

Now, therefore, I, Jeremiah M. Husk, governor of the state of Wisconsin, in harmony with the proclamation of the president of the United States, do appoint

THURSDAY, NOVEMBER 27th INSTANT, a day of thanksgiving and praise, and I hereby command that the people, on that day, abstain from labor, and assemble in their usual places of worship, give thanks to Almighty God for His infinite goodness to us as a people, and that we generally remember the poor who have no voice.

In witness whereof, I have hereunto set my hand and caused the Great Seal of the State of Wisconsin to be affixed.

(Great Seal) Done at the city of Madison, this 19th day of November, in the year of Our Lord, one thousand eight hundred and eighty-six.

J. M. HUSK.
By the Governor
JESSE C. TIMME, Secretary of State.

A father who strikes at the command of illiterate and demagogic bosses, strikes at his own children.

The president has been kind enough to restore Xenon, the democrat, to his position; now won't he be kind enough to restore Stone, the republican, when the charges in each case were identical?

The Knights of Labor are considering where to invest the \$40,000 appropriated by the Richmond convention for co-operative work. The Knights of Labor have invested hundreds of thousands of dollars in strikes, and why not invest the forty thousand in that manner? About the only stock in trade the Knights have are strikes and agitators.

An item of some significance from the Oshkosh Northwestern: It is now stated that W. A. Walker, chairman of the state democratic committee, is a candidate for Delaney's place as United States district attorney. That Mr. Walker could have managed the democratic politics of the state and especially of Mr. Delaney's district so as to make room for his own candidacy can hardly be suspected.

Judge O. C. Fuller, of Meosote county, in the case of "State of Michigan vs. Vasimman," decided upon a physician refused to testify on the ground that the evidence would be expert testimony, said: "After many years' study and observation, I decide that a physician's knowledge is his stock in trade, his capital, and we have no right to take it without extra compensation than we have to take provisions from a grocery without pay to feed the jury. The court rules that the witness is not compelled to testify."

The city of Pittsburgh is now enjoying a novel experience—certainly a novel one for that city, the scene of so many strikes and other business disturbances. For the first time in several years there are no workmen who are suffering from a grievance worth striking about. Every furnace and factory is in full blast, the new tax on oleomargarine not having proved effective even in shutting down the imitation butter factories. There are various reasons given for this unprecedented and altogether satisfactory condition of affairs, but the probability is that the chief reason is the general adoption of the sliding or yearly scale of wages.

By this very sensible method of wage adjustment the workmen are made to feel that they have a mutual interest with their employers, sharing in their prosperity when business is prosperous as at present, as well as in their losses when it is stagnant. If the Pittsburgh method of sliding scale was adopted by more cities and great labor centers rejoicing in the absence of strikes and lockouts.

Poor Brakenham Wells, charged with negligence at the Rio disaster, has been sent to jail because he was unable to procure \$1,000 bail. So it seems that Wells will be held responsible for the disaster. The New York Times, concluding that "to send him a dozen directors to state prison as the consequence of such an accident as the one under consideration, would do more for the safety of the traveling public than the conviction and imprisonment of a hundred evil-doers." This criticism is not just to the company for the reason that it can not always guard against the stupidity of some of its employees. Why were the directors to blame for the Rio disaster? What was the inferior appliance that directly or indirectly caused the accident. The fact is there is no accounting for the calamity at Rio. Such an accident has never before happened to the St. Paul company, and may never happen again in a generation. Millions of people carried on its trains and not a passenger killed is a record that stands as an honor to that company. And why a combination of strange circumstances should take place just at that time to bring about the appalling accident no one can tell. It is one of those exceedingly rare and very strange happenings that no one can account for. But it was Wells' business to replace the switch and he did not do it then. He should be made to suffer for the crime he committed.

"In the count of Connecticut's official vote it is found that the democratic candidate for governor, Mr. Cleveland, leads the republican opponent exactly 1,388 votes. By virtue of the abstract law of right he would thus be entitled to the office for which he ran, or if he were not entitled there can be the man who had nearly 1,500 fewer votes would not be either. Yet, the operation of the law in force in that state, which requires that a candidate must have a majority over all, will give the minority candidate the gov-

ernorship by throwing the election into a partisan legisla-ture. The theory upon which the law is said to be based is that the will of the majority must be clearly ascertained, and the law itself aims to remedy the alleged evil which results when a majority has not expressed its choice."

The foregoing is from a democratic paper, the Philadelphia Times. There is no doubt that the law is unjust, but it pleases both political parties so well that they refuse to either repeal or modify it. It is a good deal like the Maine law was up to six years ago, when a little common sense finally crept into the legislature, and the old law which was as absurd as the Blue Laws of Connecticut, was changed to something modern and sane.

So long as both political parties stick to the cumbersome and antiquated law in regard to the manner of electing a governor, just so long will the people be troubled with the evil the Times speaks of.

Judge of a government by the men it produces. Judge of a man by his deeds, a tree by its fruit, a medicine by its results. Time tried and true is Dr. Bigelow's Cough Cure, which contains the good qualities of all the best cough remedies without the defects of any of them. A safe and speedy remedy for coughs, colds and all throat and lung troubles. Sold by Prentice & Evanson, in fifty cent and dollar bottles. Healing to the lungs. Safe and pleasant for children.

WHITNEY AT WORK.

THE NAVAL SECRETARY PROPOSES TO CONSOLIDATE THINGS.

An Order to Prepare a Scheme by Which All the Expenditures Shall Be Under the Eye of the Paymaster General—Another Man Who Was Formerly Active Gets the Dounce.

WASHINGTON, CITY, Nov. 19.—Secretary Whitney has issued the following important order:

NAVY DEPARTMENT, Nov. 13.—The department having determined to concentrate as far as practicable under the charge of one general stockkeeper at each yard and station, and on board ships, the various stores and supplies, and to transfer to the paymaster general the office of the chief of providing through contract and purchase such supplies for the navy and marine corps, together with the custody of all monetary and property accounts of the navy department, and the several bureaus and two marine corps, you are constituted a board to formulate regulations to effect such object.

To this end you will confer with the several bureau chiefs and other officers interested, and obtain from them and their offices all information necessary to you in arranging the details for the harmonious inauguration of the proposed change. You will carefully ascertain what exceptions, if any, should be made to the general application of this order, and also the reduction in clerical force and office space admissible in the respective bureaus by the diminished work therein, and the probable increase in working force and office space that will be necessary in the bureau of the paymaster general, also furnish me with a memorandum to civil engineers, etc., affected by the change at the yards and stations.

You will confer with the board of which Capt. Richard W. Meade is president and prepare the necessary orders to go into force upon the 1st of Jan., 1887, making the actual transfers contemplated. In this work make use of the inventories prepared by the last mentioned board.

A system of books must be prepared in concert with the paymaster general, and should be kept by him, and all stores and property transferred should be entered into books at their present appraised market value, enabling the department to establish and maintain a system of accountability for its property.

Forms for the record and issue of stores and material at yards and stations should be prepared, and careful attention should be given to the correct work of construction, repair, equipment, etc. These forms should be such as to insure the necessary accuracy and reliability and the progress of work by overhauling each, or unnecessary formalities, very respectfully.

Secretary of the Navy, To Capt. George Brown, U. S. N.; Paymaster John W. Meade, U. S. N.; and Paymaster Trumbull B. Schweitzer, U. S. N.

Some More "Pernicious Activities." WASHINGTON, CITY, Nov. 19.—The Chicago Times correspondent telegraphs his paper as follows: The president must another suspension for pernicious activity Thursday in the appointment of George W. Sawyer to be register of land at Springfield, Mo., vice A. C. Woolley, suspended for that cause. Woolley was the republican incumbent. This removal, taken in connection with the statement of District Attorney Benson, completely disposes of the president's much discussed order, and puts him on a platform the democratic leaders all over the country will approve. Woolley was suspended upon charges alleging that he had been taking an active and vigorous part in political management.

Getting Ready for Congress. WASHINGTON, CITY, Nov. 19.—Responses already received from members of the house appropriations committee indicate that there will be a quorum of the committee present at its first meeting next Monday. Complete lists of the names of the members of the committee will be on hand and ready for the committee when it meets. The salary bill will be undoubtedly be taken up at once by a subcommittee and will probably be reported to the house a day or two after congress meets.

Liberty's Torch To Be Lighted. WASHINGTON, CITY, Nov. 19.—The secretary of the light-house board, Commander Pickens, has telegraphed to Commander Bannan, inspector of the third light-house district, which embraces Belknap's island within its limits, to take steps for the lighting of the Belknap station on Liberty on Nov. 20th. It is estimated that it will cost about \$500 a month to maintain the light, and that it will require several days to arrange all the preliminaries.

Currency for Kansas. WASHINGTON, CITY, Nov. 19.—The controller of the currency has authorized the First National bank of Newell City, Kan., to begin business with a capital of \$40,000.

The great source of the extensive curative range of Dr. Jones' Kid & Liver Tonic are its great blood purifying qualities and its gentle and effective action, therefore, it is a safe and reliable remedy for all the various ailments of the digestive organs, curing promptly and thoroughly dyspepsia, constipation, bad breath, piles, pimples, low spirits, sick and nervous headache, ague, malaria, and all stomach, liver and kidney troubles. WELL AND BRAVELY DONE.

GALLANT RESCUE OF A WRECKED CREW AT MARQUETTE, MICH.

Eleven More Men Lost on the Lake—Heavy Blow at Buffalo—Storms in the East—A Landslide on Top of a Passenger Train—Many Injured—Two Girls Cremated—Assorted Disasters.

MARQUETTE, Mich., Nov. 19.—There was a storm blowing here Thursday morning. The great waves rolling in from the north ruined the massive oak and stone government breakwater, and swept the solid stone beacon tower into the lake like a piece of cork.

At 4 p. m. the schooner Florida, storing by the sound, the government fog horn, tried to make the harbor, but mist, fog, and let go both anchors in the breakers but 200 yards from shore. Almost at once it was seen that she must go to pieces, and the crew climbed into the rigging. Two steamships in the harbor endeavored to go to their rescue, but were driven back with their bulwarks stove in, and the Florida's crew gave themselves up for lost. One of her menists then broke off, and the sailors began to make agonizing appeals for help. The Capt. John F. started for the rescue in the tug boat. Her machinery is powerful, but she is so small that the hundreds who watched the attempt from the cliffs on which the town is situated, did not believe it possible for her to do a moment in the sea. The Florida lost but three men aboard, and they struggled to get into position to help the schooner's crew, until the excitement had spread through the town and business was almost deserted, and the wharves were black with spectators. After repeated trials the Florida's stern was lashed under the schooner's quarter, and the crew of the Florida, carefully waiting their opportunity, jumped over the side of the tug. At all events the Florida safely except the mate, Andrew Peterson, of Cleveland, whose body was washed back between the sides of the tug and the schooner. He was instantly killed.

The Florida reached the harbor safely, and at night nothing in town was too good for Capt. Fink. Late Thursday evening no trace of the Florida remained. The steamship Marquette and consort, David Wallace, were blown down the lake Thursday morning. The latter soon broke in two, and men with yaws left once by land for the wreck to rescue the crews that could be seen in the rigging.

Eleven Men Reported Lost. CHICAGO, Nov. 19.—Private advices received here tell of the loss of the schooner Harvey Bissell, Pullman, and the propeller New York. The former vessel formed a part of the fleet of the late Mr. Martin Field, and foundered at anchor in company with the Emerald and Lillie May. She was last seen Wednesday night with a signal of distress flying from her masthead, but as the sea was running mountain high about her, and no life saving crew was within helping distance, nothing could be done to save life. Thursday morning when the villagers went down to the shore the Bissell had disappeared. It is thought that every man of her crew of seven persons perished.

The Pullman, as nearly as could be ascertained, was lost Wednesday night, foundering in deep water off Two Rivers Point, which is situated on the lake. It was seen by John Turner, and stayed all night in the morning the hired girl, who had been raised in Turner's family, put her hands on the masthead and on some fixed object. Nine persons part of the crew, and all became dangerously ill. The girl also took her portion. She is now dying and the old lady, Mrs. Turner, who raised the girl, is very ill. A man child, already dead, is being kept by the girl, who refuses to sign for the dead by the girl, who refuses to talk on the subject.

Libel Suit Against Senator Sewell. PHILADELPHIA, Nov. 19.—Suit for \$25,000 damages for alleged libel was brought against United States Senator Sewell of New Jersey, Thursday, by Thomas H. Dudley, formerly United States consul at Liverpool. The suit is based upon remarks made by Mr. Dudley to have been made in a speech by Mr. Sewell at Camden last month, to the effect that Mr. Dudley had charged illegal conduct and was a dishonest man. Mr. Dudley had obtained his office by a bribe at the Chicago convention which nominated Lincoln for president.

Settled by the Bismarck. CHICAGO, Nov. 19.—The severe weather of the past few days has had a decided effect on the stock yards strike, and it is very evident that the efforts of a few leaders to keep the men from going to work and signing the obnoxious guarantee will be of no avail. Thursday thousands of the old hands presented themselves and those who were put to work signed the bond without demur. The fact that the men have nothing saved and their families will suffer if they do not go to work, has a powerful influence.

The Latest Surgical Wonder. CINCINNATI, Nov. 19.—A remarkable case of "artificial alimentation" has come to light in this city. On Tuesday evening Dr. N. P. Danforth appeared before the academy of medicine with a little girl, a child of 6 years, upon whom an operation had been successfully performed, enabling her to take nourishment by a tube inserted through her side, she being unable to take it in the natural way. The child is apparently enjoying good health, with prospects of a long life.

Readiness to Rack-Boats. DUBLIN, Nov. 19.—The overtures of the tenants on the estates of the marquess of Clanricarde, at Portlanna, County Galway, who offered to lodge the amount of rent due, less the amount of the arrears, in rack-boats, and to have the full sum advanced. Mr. Dillon and Mr. William O'Brien spoke at Portlanna Thursday evening amid great excitement. Both speakers counselled their hearers against acts of violence, but declared their readiness to the execution of experiments.

A Good Way to Mend Matters. WASHINGTON, CITY, Nov. 19.—Following close on County Treasurer Hollingsworth's declaration of \$20,000 comes the announcement of City Treasurer Dosterberg's shortage of \$10,000 to \$15,000. He can give an explanation, but suits and ories.

Saved His Life. Mr. D. I. Wilcoxson, of Horse Cave, Ky., says he was, for many years, badly afflicted with Phthisis, also Diabetes; the pains were almost unendurable and he would sometimes almost throw himself into convulsions. He tried electro-bitters and gained relief from first bottle and after taking six bottles, was entirely cured. Says he positively believes he would have died, had it not been for the relief afforded by Electro-bitters. Sold at fifty cents a bottle by Frank Sherer & Co.

A CARD. To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, etc., I will send a receipt that will cure you. FREE OF CHARGE. This remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. J. J. T. LINDLEY, Station D, New York City.

Convenient Present, and results, are Acher's Dyspepsia Tablets. Recommended by physicians and endorsed by all who have used them. The best remedy for Dyspepsia, Flatulency, and Constipation. Guaranteed, and sent at 25c. by Prentice & Evanson, O. P. O.

Two Young Ladies Cremated. Awful Results of the Careless Lighting of a Fire.

MARION, Ind., Nov. 19.—Fire Thursday morning destroyed the residence of James Johnson at Landisville, twelve miles north-west of this place. Johnson, his wife and two sons escaped, but the two daughters, Ella, aged 20, and Jane, 18, perished in the flames. John Turner, a hired hand, was badly burned. Turner arose at 3 a. m., and built a fire and went back to bed. It is believed a spark from the stove set fire to the house. Both girls were teachers and highly respected. Nothing was recovered of the bodies except a few charred bones.

Chicago Church Building Destroyed. CHICAGO, Nov. 19.—The First Presbyterian church of the Town of Lake was totally destroyed by fire Thursday morning. The origin of the fire is unknown. Loss, \$50,000; insurance, unknown.

BASE BALLISTS ADJOURN. Close of the League Meeting—New Laws—The St. Louis Club.

CHICAGO, Nov. 19.—The National league baseball club directors finished their annual session in this city Thursday. Sundry amendments and changes were made in the constitution, the most important being that in regard to a division of the gate money. Hereafter the home club will take all the receipts of such championship games and pay to the visiting club the sum of \$125, except on holidays and special occasions, when an equal division will be made.

The championship season will in future extend from April or May to September or October as the league may decide. In event of rain before three innings of a game have been played the home club will issue tickets to be good at next game. The election of officers resulted in the choice of N. K. Young as president; Messrs. Young, N. K. Young, Messrs. Day, and Routh as directors; Messrs. Spaulding, Stearns and Beach, secretaries; Messrs. Rogers and Day as arbitrators. Permission was given to the St. Louis club to play exhibition games on Sunday. No change was made in the membership of the league.

The St. Louis men were fighting mad over the report that they were going to sail their franchise, and asserted that it was an attempt to freeze them out, which they would not tolerate. The St. Louis men were fighting mad over the report that they were going to sail their franchise, and asserted that it was an attempt to freeze them out, which they would not tolerate.

POISON FOR BREAKFAST. A Hired Girl Fatally Poisons Three Persons, Including Herself.

DON'TSMOUTH, Ohio, Nov. 19.—Dr. Danforth, of Buckeye, went to see a case of poisoning, John Turner, and stayed all night in the morning the hired girl, who had been raised in Turner's family, put her hands on the masthead and on some fixed object. RUSHING TO DEATH. In the attempt to swim the Niagara Whirlpool Rapids is no more reckless or dangerous than to trifle with disease which each day seizes a stranger hold, and hastens the end of life. This is specially true of rheumatism, neuralgia, sciatica, and nervous headache, which (though perhaps slight at first are extremely dangerous, and steadily acquire a firm hold until at last the agony is unendurable and sudden death brings relief.

These diseases can be cured by the use of Anklephors pills, in connection with Anklephors Pills, never fails when properly used. Read the following from those who have tested it.

Charles Robles, Appleton, Wis., says: "Anklephors is certainly an excellent medicine for rheumatism. While I have never had occasion to use it myself I have seen some wonderful cures from its use. My son took one bottle of the remedy for rheumatism, and it cured him; never has been troubled with the disease since. The case of my father-in-law, E. Merrill, was much more severe; the disease was over his entire system; he was a terrible sufferer. He used three or four bottles of Anklephors, which entirely cured him, and since that time, about two years ago, he has had no rheumatism."

Madison, Wisconsin. I have been a victim of a severe rheumatism for the past three years, and having tried almost every known remedy without avail, was discouraged. Last winter I was afflicted much worse than ever and was induced to try Anklephors, and am now glad to state I am free from pain, and pronounce it a god send for the afflicted.

MANLY WISCONSIN. No. 810 University Avenue.

Every druggist should keep Anklephors and Anklephors Pills, but where they cannot be bought of the druggist the Anklephors Co., 112 Wall St., New York, will send either (carriage paid) on receipt of regular price, which is \$1.00 per bottle for Anklephors and \$1.00 for Pills. For liver and kidney diseases, dyspepsia, indigestion, weakness, nervous debility, diseases of women, constipation, neuralgia, sciatica, etc., Anklephors Pills are unequalled.

Of the many social gatherings that

promise to make this season a memorable one, none could be more enjoyable than that at the home of Mr. and Mrs. Beulah Dearborn last evening. Mr. and Mrs. Dearborn's handsome fourth residence was well filled with the younger friends of the host and hostess, who passed a pleasant evening around the progressive mahogany tables. They were very hospitably entertained and the game provoked much merriment. The first prize for ladies was won by Mrs. G. O. F., who being obliged first to play off the tie between her and Miss Ida Davis. The first prize for gentlemen was won by Will E. Emerson and the booby prizes went to Orrin Benis and Mrs. Ed. Doty.

The following changes in the playing rules of base ball have been adopted by the National Association and will prevail next season: The high and low ball system has been abolished, any ball now being considered fair that passes the player between his shoulder and knee and that passes over the plate. Bunting will in future not be allowed. Any obvious attempt to make a foul hit, will be scored as a strike. Clubs will not toss for choice of position in future; the right of choice invariably resting with the home club. Five balls and four strikes will be allowed instead of six balls and three strikes as heretofore. When a batsman takes his base on balls he shall be credited with a base hit. A batsman shall take a base when struck by a pitched ball. Any motion whatever on Sunday. He was found guilty and fined twenty-five dollars and costs.

—Rev. Dr. Conover, who is in Winnetka, Ill., sent word from there today that his daughter, Mrs. Gage, died this morning. The obituary at Trinity church to-morrow, will therefore be omitted.

—This item is going the rounds of the state papers: "A member of the Dane county board of equalization, from a town which reported no valuations, was asked, during a session, what the time was. He drew a \$125 gold watch from his pocket."

—On Wednesday evening at the Rev. Father McGinley's residence, Edward H. Patterson and Miss Julia Craven, both of this city were united in marriage. Mr. and Mrs. Patterson will make their home at the residence of the groom's parents near the Institute for the Blind.

—The Salvation Army proposes having a jubilee and presentation of colors in Cannon's hall, Tuesday evening, November 23d. Meeting led by Major Eastman assisted by others from surrounding corps. Come on, come all. Admission by ticket 10 cents. Captain Thorogood, and Cadet Eastman in charge.

—The public school building at Elk-horn was entirely consumed by fire at three o'clock on Thursday morning. The loss is reported at about \$10,000, of which \$9,000 is covered by insurance, as follows: Underwriters, N. Y., \$2,000; Aetna, Hartford, \$2,000; Home, N. Y., \$2,000; Phoenix, Hartford, \$2,000; Continental, N. Y., \$1,000.

—Mrs. Susan Smith, wife of Archibald Smith, of Spring Valley, died at her home in that town November 13th, aged 38 years. Deceased was a sister of Sheriff R. B. Harper, and H. T. Harper. She leaves beside her husband, one daughter five years old to mourn the loss of a kind and affectionate mother's care. Mrs. Smith was the last survivor of a family of three sisters.

—The Recorder man will look over last night's Gazette he will see that what was said of the toboggan club was true. It was not stated that a club had been formed but that rumors of an organization in the future were beginning to fly. And the reporter's informant lives on the east instead of the west side. A west side young man did give him a "pouter" but this west side young man has a very bad reputation for veracity, no attention was paid to his remarks.

—Occasionally mistakes will creep into the columns of every paper and the country press does not have a monopoly in this line by any means. In a report of the Burrus trial one of the Chicago dailies has this passage: "Dr. J. B. Whitney, attorney D. J. Jackson, a justice of the peace named Pritchard and Deputy Sheriff O. H. Stone, all of Evansville, Wis., testified, etc. etc. Another of the papers has among the witnesses from Evansville "Dr. W. H. Smith," and "the city editor of the Republican."

—LaGrange, with a population of 21,740 has just levied the city tax, amounting to a fraction over ten per cent of the valuation. The total tax levy is \$134,727, three times greater than in Evansville. The items may be of interest to Evansville tax payers, and we give them as follows: Police, \$18,500; fire, \$17,727; poor, \$4,100; printing, \$2,000; street light, \$11,000; water department, \$10,000; grounds and buildings, \$10,000; parks, \$3,000; salaries, \$7,500; streets and alleys, \$15,000; sewers, \$2,000; incidentals and other, \$35,000.

—A very rare story will appear in the December Harper's of the most delicate texture, and fully equal to anything by Saxo Holme. It is called "The White Garden," and will excite wide attention from admirers of poetic prose. In spite of its mystic, indefinable quality, the illustrations, by Alfred Fredericks, do not jar on one's appreciation of the text, but rather aid one's imagination in enjoying the dainty morsel. Curiously, the author, Miss Harriet Lewis Bradley, has never been heard of before, the story having come to Harper's Magazine as a chance contribution.

We want our military department to participate in the "rush" which we expect for to-morrow. Here are the attractions: Flat shapes, best wool felt, all colors, all shapes, at 63 cents; same, faced with astrakhan, 58 cents; Misses' trimmed hats, new and stylish shapes and trimmings, 75 cents to \$1.25—reduced from \$1.25, \$1.50 and \$1.75. All trimmed hats and bonnets marked down. Very pretty hats, stylishly trimmed, at \$1.50, \$1.75, \$2 and up to \$5. Fancy feathers, tips, etc.,—immense assortment, at 25 cents to \$2 and up. For bargains in millinery goods, apply to-morrow.
